**COMMENTS**

Bravo to realistic plans to bring us together in the best interest of our students.  
Thanks for all your hard work.

Something is actually happening!

Huge thanks to the committee for your work! Awesome plan.

You are all trying but to do this, everyone has to look at this as one community and we are not there yet.

Something has to be done because our schools are too small which puts limits on learning

One regional high school is without a doubt a positive initiative

Positive gathering. Committee has done a good job.

No choice; we must have one high school

Excited that adults have put together a solid plan that will provide GREAT SCHOOL opportunities.

The area needs to do this for the future of our children.
